

Xingtera Smart Helmet

XTSH-RD-D6

4G Industrial

Explosion-Proof Helmet

INTRODUCTION

PRODUCT OVERVIEW

The 4G industrial explosion-proof helmet is integrated with 21MP/Autofocus/1080P HD camera, voice intercom, and 4G/Wi-Fi communication module to support multiple functions, such as the high-definition video call, video capture, voice communication, intercom, local video storage, and real-time positioning, etc.

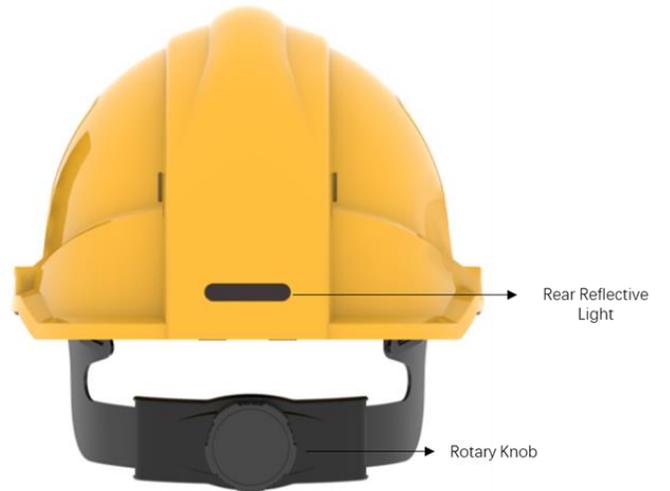

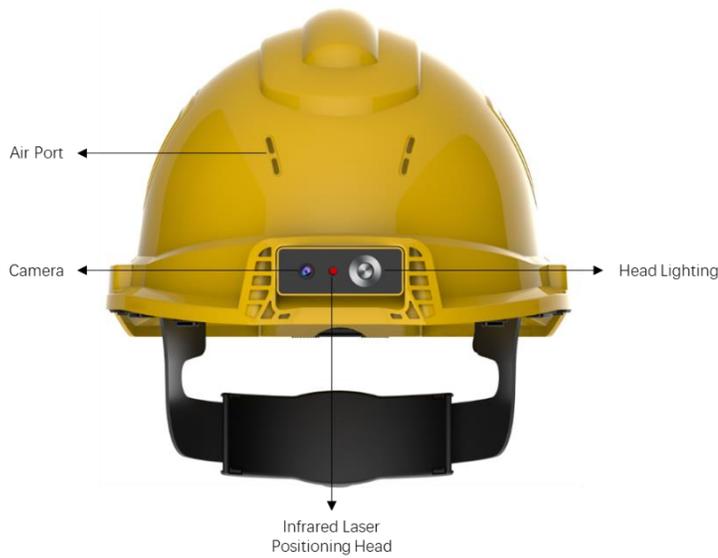

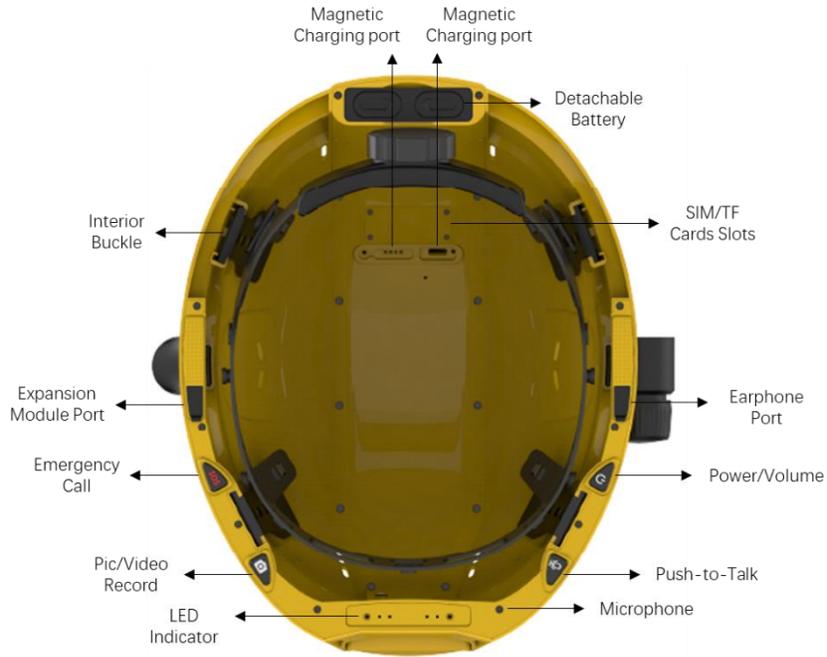

The helmet is intrinsically safe explosion-proof, which supports operation at - 30°C to 60°C and harsh working environment. The helmet can be applied to various industries, such as construction, railway maintenance, oil & gas factories, chemical factories, mines, docks, even for security patrol and rescue, etc.

KEY FEATURES

- ✧ **21MP high-definition autofocus camera** supports 1080P and achieves high-definition video call, real-time video display, video capture, as well as one-click for video recording.
- ✧ **Support the multiple expansion modules** are optional, such as high precision positioning, hazardous gas detection, personnel height positioning, face recognition, near-electric-power sensing, fall alarm, etc.
- ✧ **Long standby and long endurance** support long working hours with the capability of continuous video transmission.
- ✧ **AI voice control system** enable the workers control the device with hand-free, such as light on/off, pic/video record, SOS, wake up the device, etc.
- ✧ **OTA** is supported for efficient remote management.
- ✧ **Detachable battery** enables the battery replacement easier.
- ✧ **Dual SIM cards slots** support two SIM cards usage.

Product Button Functions

SPECIFICATIONS

Item	Parameter	Item	Parameter
Camera	21 million pixels autofocus HD	EMCP	4GB+64GB
Software Platform	Android 10.0 or above	Positioning	GPS dual mode positioning
Headset	Supporting Bluetooth headphone	Microphone	Dual noise reduction
Expansion TF card	Maximum support expanded to 512GB	Bluetooth	Support
SIM Card	Dual Mirco SIM Cards	Wi-Fi	IEEE802.11b/g/n, 2.4G; 5G
4G Cellular Frequency Band	LTE-FDD: B1/B2/B3/B5/B7/B8 LTE-TDD: B34/B38/B39/B40/B41 WCDMA: 2100Mhz	Battery Capacity	5000mAh Detachable
Indicator	Operation status indicator	Flashlight	Infrared Laser Assisted positioning
Size	294(L)*228.5(W)*153.5(H) mm	Weight	≤650g
IP Protection Class	IP66	Material	ABS
Certification	National GB2811-2019 Safety Helmet Certification, CE certificate, Ex ib IIC T4 Gb		

EXTENDED FUNCTIONS

✧ Face Recognition

Supports face recognition and identity verification.

✧ Height Detection

Supports location height positioning with the accuracy of 1m.

✧ Near-electric-power Detection

Supports warning for near electrical power.

✧ Fall Alarm

Supports gyroscope-based fall detection and alarm.

✧ Cap-off Alarm

Supports warning for taking off hat.

✧ Gas Detection

Supports detection of the concentrations of carbon monoxide, oxygen, and other gases on working site.

✧ High Accuracy Positioning

Supports centimeter level high-precision positioning assisted by the technology of UWB/RTK/BLE.
